CINCINNAII, July, Id.—This city and
the Ohio valley was visited by the
storm-king Friday afternoon, with considerable damage to property and loss
of life. The wind wore a cyclonic aspact in some localities, but these were
due to local ediles that developed great
twisting powers.

eral revenue. Such they must continue to be.

The rejection of this proposition must mean that the Democrats intend the repeat of all Tariff taxes save possibly a few for revenue only. Contemplating a system of taxes on incomes or the Henry George scheme of putting all taxes on land, the Democrats refused to say that the system on Tariff taxes on foreign goods is to be maintained permanently even to procure revenue. This action follows in line with the course of Democratic Congressmen in printing HENRY GEORGE'S single tax book in The Congressional Record and circulating it at public expense as a Bemocratic campaign document. What will farmers and land owners think of paying all the taxes while stocks, bonds, etc. go free.

Here a citizen was fatally injured and others bodly hart, while the damage to property rans into the thousands.

Wm A. Ward was standing on the parentent in front of his architectural from works, at No. 49 Central avenue, when the storm came. There was a "billial" story of brick on the building parentent was stored to the ground, his skull fractured and shoulder bruised. Recovery doubtful.

The storm carried everything before it in the east end. Trees were uprosted walls were blown in and many narrow escapes from falling slates from the roofs of houses were witnessed. No less than four runaways took place, and in one instance a fatal termination is expected. The water from the hill tops came down in floods that syvamped everything, doing a great deal of damage.

The rejection of this plank was very significant. In going back to the old ante-bellum doctrine of Free-trade why should the Southerners pledge themselves to spare Northern interests or labor? What they are after is to secure benefits for themselves at the expense of the North, and they now have the courage to say so just as they did before the war.
